Pledge to the Flag

Public Comment

Minutes:

May 28, 2024 - *Tabled*

Old Business

1. Playground Equipment/Grant Update

A review of the progress of the playground project was covered. The playground equipment was installed. Engineered mulch was placed into the play area to provide safety. Public works back filled the rear of the playground and placed grass mats to transition to the level surface. Manager Walizer mentioned the engineered mulch will be a submission in the grant to show safety equipment was installed leaving approximately \$3,000 of the grant budget remaining.

2. Community Day 2024

Mr. Murray started by giving a review of past Community Days. Community Day has highlighted the presence of local community groups like the state police, fire, ems, veterans groups and other non-profit and governmental agencies. The past two years has also included local makers and farmers. The event has historically been about giving back to the Community and has not focused on making a profit. There was discussion about the pros and cons of having a budget for the event. Concerns were

raised by the Board members regarding monitoring of the budget and no resolution regarding the matter was reached.

Supervisor Fischer explained the need for a shared tracking structure that could be utilized by the board and the new volunteers. Supervisor Fischer took the lead in this discussion and tasks were assigned to those in attendance.

Mr. Murray stated there was a need for the manager to book the Shredit truck which has also been at this event.

New Business

1. Other Updates/Potential Projects - *None*

Upcoming Meetings

Board of Supervisors regular meeting: July 10th, 2024

Meeting Adjourned at 8:34pm.
